Government Information Day

Welcome

Welcome to Government Information Day 2018 at the Indiana State Library. Thank you to all returning attendees and welcome to all newcomers to our event. GID18's theme is Advocacy, Research, and Collaboration. Today is an opportunity for learning and cooperation among information professionals, librarians, and government agencies.

We are pleased to have Cynthia Etkin, Senior Program Planning Specialist in the Office of the Superintendent of Documents, U.S. Government Publishing Office, as our keynote speaker and welcome her to the Indiana State Library. Her perspectives on delivering government information to the public are sure to be interesting and insightful.

I also want to thank all of our speakers, exhibitors, volunteers, and sponsors involved with GID18. It is with your efforts that we are able to put together an outstanding event for everyone.

Again, thank you for attending Government Information Day. Be sure to explore the beautiful historic building and new features in the Indiana Young Readers Center and Statehouse Education Center.
